

Riverside University High School
Linda Eisenzimmer, Technology

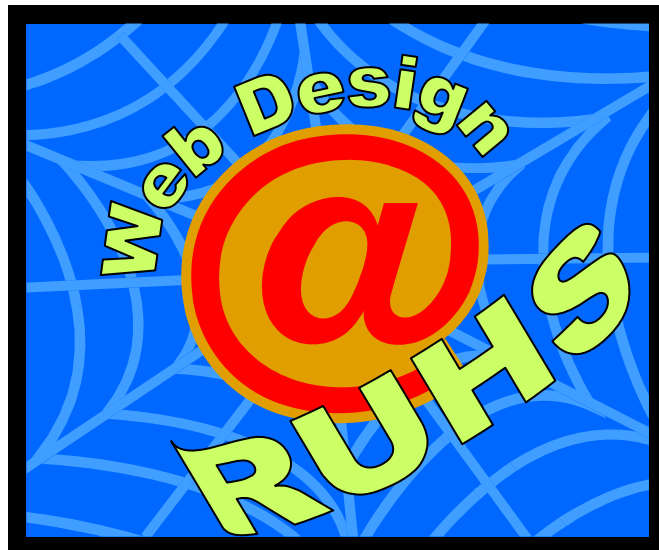

Advanced Web Design

The goals of this class are:

- to learn advanced web page programming skills
- understand the design principles of web sites
- support the RUHS community in developing and maintaining its website

Curriculum

We will be referencing chapters 6 thru 10 in the book, Macromedia Dreamweaver MX published by Lawrenceville Press. We will work with Adobe's Dreamweaver MX, Fireworks, Flash and Acrobat software. Collaborative and individual work will be expected. Homework will be assigned on a weekly basis and will involve research for the school website.
